Judith Liegeois loves to travel and her engaging designs are inspired by the textures, colors and spirit of the places she visits. Her design consulting services include space planning, lighting, color study, fabrics, upholstery, home styling and furniture design. Judith exudes creativity and collaboration. For this vignette, she chose a sofa, reminiscent of what one would find in a French sitting room with the rich green mohair coupled with the beautiful Pierre Frey pillows. “The draperies also have this wonderful French style and whimsy, with a touch of moody. I was inspired by what the French do in design, which is carefully mixing patterns and styles together - making it look easy, when in fact it was quite thought out.”

Here are Judith’s picks for French flair.

- Drapery fabric by Pierre Frey
- Vintage carved elephant side table
- Set of three mirror-top tables
- House of Drop painting
- Cashmere throw blanket
- Pierre Frey pillows
- Quartz trays
- JLD signature ceramic pebble vase with red roses
