

« ARTFULLY UNBREAKABLE

Although they appear to be made of glass, these decorative vases, created by Gaetano Pesce, an Italian architect and design pioneer, are actually constructed from soft resin. The artist is known for innovative modern design characterized by an inventive use of color and materials. These quirky yet fun pieces stand out in a room, whether clustered together or showcased separately.

"An interesting vase is a perfect statement piece because it has a design aesthetic, and it is functional. Functional art is always a wonderful choice for an accessory," relates Elisa Fleischer of Judith Liegeois Designs. *From \$750 to \$1,500; Judith Liegeois Designs, Naples (judithliegeoisdesigns.com)*
